Mini-Bru

Brussels-Capital
Region
in figures

2018

Interested in the Brussels-Capital Region?

Then **Mini-Bru 2018**, with its wealth of figures on the history, economy, territory, infrastructures... of the Brussels Region, will be right up your street. This brochure offers you essential information about the people who live in this region (demographic characteristics, nationality, health, income, education...) and about the various actors that play a role in it (businesses, health service institutions, tourist accommodation...).

As regional centre of expertise and initiator of the territorial development strategy in the Brussels Region, **perspective.brussels** observes, analyses and anticipates the challenges and opportunities with a view to building a better future for all its citizens and stakeholders. By providing the public with food for thought on the Brussels-Capital Region, Mini-Bru 2018 contributes to the mission **perspective.brussels** was entrusted with.

We hope it makes for compelling reading!

DEFINITIONS

- **Activity rate:** Proportion of the active population (employed and unemployed population) in the working age population (15 to 64 years).
- **Chained euros:** Way to measure the change in volume after removing the effects of the price changes for the calculation of various economic aggregates (source: NBB).
- **Employment rate:** Resident employed population as a percentage of persons of working age (15 to 64 years).
- **Enterprise births:** Number of enterprises that are VAT registered on 31 December, whereas the year before, on the same date, they were not.
- **Enterprise deaths:** Number of enterprises that are no longer VAT registered on 31 December, whereas the year before, on the same date, they were.
- **Fertility rate:** Number of children that would be born to a woman over her lifetime if she was to experience the age-specific fertility rates recorded for the year under consideration (total fertility rate).
- **HERMREG:** Multi-sectoral macroeconomic model offering medium term projections of the different aggregates at Belgian regional level.
- **ILO unemployed:** Economically active persons who are without work, available for work and actively seeking employment.
- **ILO unemployment rate:** Proportion of ILO unemployed persons in the economically-active population (employed and unemployed persons) aged 15 to 64 years.
- **Internal net migration:** Difference between the total number of internal arrivals (from other Belgian Regions to the BCR) and the number of total internal departures (from the BCR to other Belgian Regions).
- **International net migration:** Difference between the total number of international immigrations and the total number of international emigrations.
- **Natural balance:** Difference between the number of births and number of deaths recorded over a given period.
- **Office vacancy rate:** Surface of built offices that are for rent or sale on the office market, in relation to the total surface area of the existing office park.
- **Private household:** Group of people habitually living together in the same dwelling, who has no collective character (monastic communities, retirement and nursing homes, prisons...).
- **Technological and non-technological innovation:** Technological innovation is the introduction of a new or improved product or process. Non-technological innovation consists in the implementation of a new marketing or organizational method.
- **Unemployed job seeker:** Person without paid employment registered as a job seeker with a public employment service.

Within perspective.brussels, the Brussels Institute for Statistics and Analysis (BISA) centralises and disseminates statistics on the Brussels–Capital Region. The BISA also carries out socioeconomic studies and public policies evaluations on Brussels–related issues.
